Returns are annualised if over one year. All return periods over one month are compounded monthly.

Metrics Direct Income Fund

Market Update

Australia's loan markets remained resilient over the quarter despite heightened global geopolitical uncertainty and public market volatility. The Australian market is underpinned by banks that maintain strong liquidity, have a stable funding cost and remain focused on risk management.

Syndicated loan market issuance started the year well, in line with last year comprising a mix of refinancings and event-driven transactions. Demand for Australian loan assets from domestic and offshore bank and non-bank lenders has underpinned market liquidity and spreads have remained tight.

Corporate lending however, was subdued following a busy December quarter. Private equity capital remained cautious amid global macroeconomic uncertainty, equity market volatility and the looming federal election.

Commercial real estate lending remains strong. Residential property prices appreciated over the quarter with more favourable market conditions including a February RBA rate cut, while average development input costs remained relatively stable.

Fund Update⁷

Metrics has maintained a consistent, disciplined approach to investment and credit risk management over the quarter given the backdrop of public market volatility and strong bank lending appetite.

The Fund continued to further diversify, increasing the portfolio to 323 underlying loans (vs. 321 prior quarter) comprising 15 new loans less 13 loan repayments¹.

Fund capital was deployed into marginally higher rated⁹ (lower risk) lending exposures, and credit watchlist levels remained historically low. 3 loans were in the process of being enforced upon (1.3% of the Fund's AUM) and there were no Restructured Loans¹⁸ or Loan Losses¹⁹ over the quarter.

Net Asset Value remained stable reflecting the credit quality and performance of the underlying loans.

Investment Performance^{2,3}

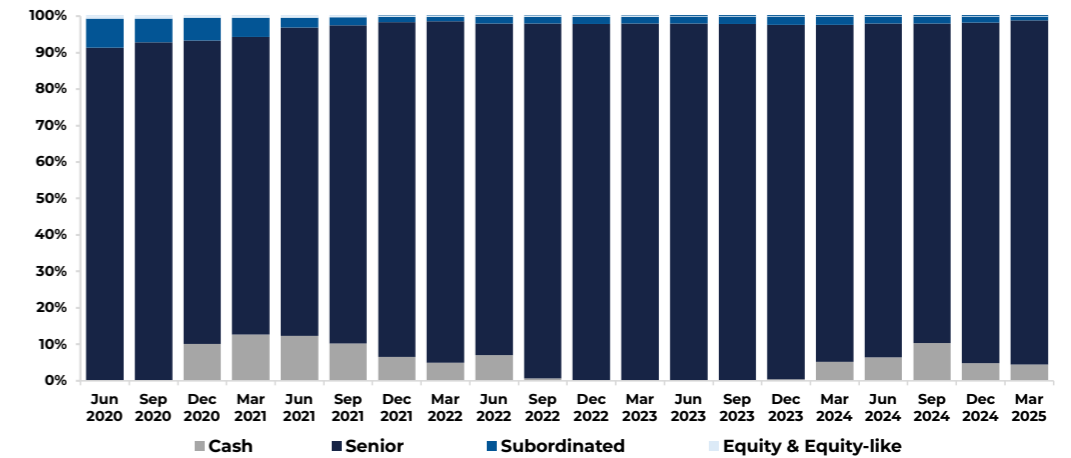

On a net basis, Fund returns were 1.96% over the quarter, slightly down from 2.05% last quarter, noting the RBA Cash Rate cut of 25 basis points (bps) occurred and other key portfolio investment settings of the Fund remained largely unchanged. There is typically a slight lag between an RBA rate cut (or increase) given the variable interest periods applicable to the underlying loans take time to roll through the portfolio. The Fund has continued to outperform its hurdle return of the RBA Cash Rate² plus 325 bps through the cycle¹, which it has done since inception in July 2022.

Credit Quality^{8,9}

The Fund's loan portfolio was c.58% investment-grade rated at quarter end, consistent with the historical range of ~45-65%. Most loans are individually around the middle of the credit risk spectrum (BBB to BB rated) with the portfolio weighted average credit rating slightly investment grade as it has been since inception.

Portfolio Composition⁸

The Fund is predominantly exposed to senior secured loans meaning shareholder equity, unsecured creditors and subordinated debt ranks behind the Fund in a borrowers capital structure. While credit quality is also very important, position in the capital structure is typically an important protection for lenders. Whilst the Fund may make subordinated loans from time to time, the Fund will continue to maintain its senior ranking profile.

Figures (other than NAV) are based on underlying Wholesale Fund activities. (15) Leverage Ratio (Net Debt/EBITDA) applies to Corporate loans based on most recent certificate provided by the applicable borrower setting out compliance with financial covenants, Loan to Value Ratio applies to loans backed by CRE and are calculated based on an independent valuation based on the 'as is' or 'on completion' market value for projects under construction. The LTV reflects the approved maximum LTV and is documented by way of loan covenants with the borrower. (16) Calculated as the interest amount overdue divided by AUM. (17) Represents loans in respect of which the applicable lender has commenced enforcement of security granted in respect of that loan. (18) Represents loans in respect of which the lender has completed a restructuring by way of enforcement or agreement with the existing equity owners which resulted in the applicable lender's exit from the loan asset. (19) Realised credit losses where recovery was less than invested capital.

Abbreviations: AUM = Assets Under Management; Corp = Corporate; CRE = Commercial Real Estate; LTV = Loan to Value; NAV = Net Asset Value; Sub = Subordinated; WA = Weighted Average; Avg = Average; NR = Not Rated.

Metrics Credit Partners Diversified Australian Senior Loan Fund

The Metrics Credit Partners Diversified Australian Senior Loan Fund (**DASLF**) is an open-ended unit trust registered with ASIC as a managed investment scheme. It invests in a diversified portfolio of primarily Australian corporate loans and other associated debt instruments, designed to broadly reflect the Australian corporate loan market. DASLF offers investors direct exposure to Australia's bank dominated corporate loan market by investing in bilateral, club-style and syndicated loans and other debt assets provided to Australian public and private companies and projects. Net income is distributed monthly¹. DASLF seeks to deliver a return of the benchmark (Bank Bills/BBSW 90 days) plus credit margin (+275-325 bps p.a. net)² while adhering to fund parameters. DASLF has an Issuer Rating of A- from S&P. Inception of Fund June 2013.

MDIF aims to achieve its Investment Objective by investing into the MCP Wholesale Investment Trust which in turn currently invests into the Metrics Credit Partners Diversified Australian Senior Loan Fund in the following range 60 - 70%.

MCP Secured Private Debt Fund II

The MCP Secured Private Debt Fund II (SPDFII) is an unregistered open-ended unit trust that invests in a portfolio of Australian corporate debt across mid-market corporate borrowers. SPDFII offers investors direct exposure to Australia's bank dominated corporate lending market by providing loans to predominantly sub-investment grade mid-market corporate borrowers. Net income is distributed monthly¹. SPDFII seeks to deliver the minimum hurdle return of the benchmark (Bank Bills/BBSW 90 days) plus credit margin (+400 bps p.a. net)² while adhering to fund parameters. Inception of Fund October 2017.

MDIF aims to achieve its Investment Objective by investing into the MCP Wholesale Investment Trust which in turn currently invests into the MCP Secured Private Debt Fund II in the following range 20 - 30%.

(12) Leverage Ratio (Net Debt/EBITDA) applies to Corporate loans based on most recent certificate provided by the applicable borrower setting out compliance with financial covenants, Loan to Value Ratio applies to loans backed by CRE and are calculated based on an independent valuation based on the 'as is' or 'on completion' market value for projects under construction. The LTV reflects the approved maximum LTV and is documented by way of loan covenants with the borrower. (13) Calculated as the interest amount overdue divided by AUM. (14) Represents loans in respect of which the applicable lender has commenced enforcement of security granted in respect of that loan. (15) Represents loans in respect of which the lender has completed a restructuring by way of enforcement or agreement with the existing equity owners which resulted in the applicable lender's exit from the loan asset. (16) Realised credit losses where recovery was less than invested capital.

Abbreviations: AUM = Assets Under Management; Corp = Corporate; CRE = Commercial Real Estate; LTV = Loan to Value; NAV = Net Asset Value; Sub = Subordinated; WA = Weighted Average; Avg = Average; NR = Not Rated.

MCP Real Estate Debt Fund

The MCP Real Estate Debt Fund (**REDF**) is an unregistered open-ended unit trust that invests in a portfolio of Australian Commercial Real Estate (CRE) loans. REDF offers investors direct exposure to Australia's bank dominated CRE loan market by lending to Australian CRE borrowers and projects including office, retail, industrial, residential development and specialised real estate assets (hotels, healthcare, etc). Net income is distributed monthly¹. REDF seeks to deliver the minimum hurdle return of the benchmark (Bank Bills/BBSW 90 days) plus credit margin (+500 bps p.a. net)² while adhering to fund parameters. REDF has an Issuer Rating of A-from S&P. Inception of Fund October 2017.

MDIF aims to achieve its Investment Objective by investing into the MCP Wholesale Investment Trust which in turn currently invests into the MCP Real Estate Debt Fund in the following range 10 - 20%.

(1) The payment of monthly cash income is a goal of the Trust only and neither the Manager nor the Trustee provide any representation or warranty (either express or implied) in relation to the payment of any income. (2) This is a target and may not be achieved. (3) Past performance is not a reliable indicator of future performance. (4) Returns are based on NAV unit price, after taking into account all fees and costs, and assume the reinvestment of distributions. Returns are annualised if over one year. All return periods over one month are compounded monthly.

While the Report seeks to provide detailed information in respect of MDIF's and the Wholesale Funds' investment portfolios, it is important to note that investments in corporate loans are private and confidential transactions between the borrower and the Wholesale Funds, accordingly the Report does not identify individual investments.

All assets held by the Wholesale Funds are valued each business day and that any movement in the carrying value of those assets (including any impairment) is reflected in the daily net asset value (NAV) of the Wholesale Funds and as a result in MDIF's NAV which is published daily at www.metrics.com.au/funding-solutions/metrics-direct-income-fund. An international accounting and professional services firm has been engaged to review the valuation of the underlying loan assets held by the Wholesale Funds on a monthly basis and to ensure that the carrying values of those assets are adjusted if there is evidence that indicates that an asset is impaired or overvalued. MDIF's NAV is separately audited/reviewed by the Fund's independent auditors at each reporting date.
